

18TH MAY 2018

CONSTRUCTION PHASE PLANS EXPLAINED

Do you know how to write them / when to use them?

This session is to explain what Construction Phase Plans are, how to prepare them, when and what is required in them. How to ensure they are appropriate to the works you undertake and not make them unnecessarily complicated. There will be a 1 hour presentation on Construction Phase Plans and then an open questions and answers session on these and other areas of CDM 2015 that you may want answered. We will cover different templates that we have worked with and written for different size projects

BOOKING IS ESSENTIAL AS PLACES ARE LIMITED

18.05.18 – 8.30am

**Construction
Phase Plans
demystified**

**A short simple
session covering:**

- **What they are**
